## DELIVER SERIES

**Versatile and modular mobile platforms for various transportation needs.**

Laboratories

Hospitals

The uLog DELIVER Series comes in different configurations and payloads, and is the ideal basis for the development of solutions for countless use cases.

**uLog** adapts seamlessly to your individual requirements thanks to its **modular payload configuration** and an intuitive yet powerful **mission planner**. Paired with unparalleled **mobility**, sophisticated **fleet management**, and functions for **remote controls**, uLog enhances both your operational efficiency and your staff satisfaction at a **competitive price point**.

## PRODUCT BENEFITS

- ▶ **Open Platform** consisting of mobile base, spine, screen, and standard interfaces
- ▶ **Maximum Flexibility** for integrators allowing customized solutions
- ▶ **Human Safety and Data Privacy** prioritized with highly sensitive sensor technology and certificates
- ▶ **Open Software Architecture** with specific access levels for different user groups
- ▶ **Open APIs** for customized solutions
- ▶ **No-Code Software** user interfaces
- ▶ **Rapid Deployments** within minutes
- ▶ **Call Devices and Follow Devices** for an easy interaction with the robot
- ▶ **Multi-Robot Fleet Management** for global and local efficiency optimization
- ▶ **Task Management** including multiple tasks planning
- ▶ **Online Dashboard** operation visualization
- ▶ **Door and Elevator Management** enabling easy control and utilization of existing automated systems
- ▶ **Interoperability** with other AMR / AGV
- ▶ **Real-time Operation** data monitoring
